

IONIQ 5 N

IONIQ 5 N (Performance Blue Matte)

Everyday N Life

650hp and 0-100km/h in 3.4 seconds*

The IONIQ 5 N is a high-performance electric car that delivers a driving experience like no other—whether in the driver's daily routine or on the racing circuit, where extreme conditions are the norm.

* When using N Grin Boost mode

* Scan the QR code to explore the IONIQ 5 N.

Exterior

The unique, inverted “N” design gives a lasting impression on the road.

IONIQ 5 N (Performance Blue Matte)

More on Exterior

N-exclusive front bumper

N-exclusive rear spoiler and inverted triangle LED brake lights, rear wiper

Includes (IONIQ 5 N-exclusive) 21-inch forged wheels, pirelli P-Zero summer tires (275/35ZR21), and N wheel cap

N-exclusive rear bumper and diffuser

Interior

The interior design is optimized for high-performance driving to meet the needs of circuit driving enthusiasts.

More on Interior

IONIQ 5 N (Black one-tone)

* The screen layout/design of the infotainment system may change with the updates.

The N Light sports bucket seats feature mixed Alcantara suede/natural leather, built-in headrests, heated/ventilated seats, and the N logo on the front/rear (front lighting).

Function

The IONIQ 5 N offers incredible functions and advanced smart technologies to guarantee top-rate driving performance.

N-exclusive infotainment mode

A high-end infotainment system provides information through several customizable “N” modes. The EV N-exclusive functions are intuitive and easy to use.

N e-Shift / N Active Sound+

N e-Shift provides a gear shift feel and generates driving sounds that make it seem like you’re driving an internal combustion engine vehicle. N Active Sound+ offers a choice of three sound types (Ignition, Evolution, and Supersonic) and can be linked to N e-Shift.

* The screen layout/design of the infotainment system may change with the updates.

Semi-punching leather-upholstered steering wheel (with heating and N emblem), featuring a design optimized for circuit/sports driving

The steering wheel, optimized for sports driving, is covered in leather.

Ambient mood lighting

The mood lamp's color can be changed as desired.

N-exclusive center console

The shin-supporting pad helps the driver maintain proper posture while circuit driving.

OTA Software Update

Get the newest version of the software wirelessly by simply turning the car off.

* The screen layout/design of the infotainment system may change with the updates.

Digital key 2

The vehicle can be locked or unlocked or the ignition turned on via iPhone, Apple Watch, or Android smartphone (such as a Samsung phone). The digital key can be shared with up to 15 devices.

* Please refer to Hyundai Motor's website for a list of eligible models.

Augmented reality navigation

The driver's screen intuitively displays vital information (e.g. destination, vehicle-to-vehicle distance, front vehicle start alarm) through AR technologies.

* The screen layout/design of the infotainment system may change with the updates.

Digital center mirror

The camera on the digital rearview mirror allows you to see what is behind the vehicle in incredible clarity.

Remote Smart Parking Assist 2

The driver can use the smart key, while outside of the vehicle, to move the vehicle into or out of a parking space.

Surround View Monitor

This function displays real-time video footage of the vehicle's immediate surroundings to ensure safe parking.

Smart power tailgate / 2nd-row remote folding

If the driver stands near the rear of the vehicle for three seconds with the smart key in his or her possession, the tailgate will open automatically, requiring no other action and enabling the driver to remove items from the vehicle easily and conveniently. Additionally, the 2nd-row remote folding button located inside the trunk allows you to easily fold the 2nd-row seats.

More on Function

Intelligent Front-Lighting System (IFS)

By preventing glare for the driver while delivering adequate brightness, the intelligent headlights guarantee excellent visibility and safety during nighttime driving.

Walk-Away Lock

The door lock is activated automatically when the driver, after having turned off the ignition and with the smart key on their person, walks a certain distance from the car.

Electric High Performance

The IONIQ 5 N's power and braking performance make everyday driving feel like you are in a sports car.

Max.Power / Max.Torque

448kW(609PS)/740Nm

0-100 km/h

3.5sec

Max.Speed

260km/h

Max.Power / Max.Torque (when using N Grin Boost)

478kW(650PS)/770Nm

0-100 km/h

3.4sec

* N Grin Boost allows maximum output for 10 seconds. Each use is followed by 10 seconds of wait time.

More on
Performance

N-exclusive high-performance brakes / N Brake Regen (NBR)

The IONIQ 5 N is equipped with four-piston brake calipers on the front, as any high-performance car would be. Its superior braking capability is made possible by N Brake Regen (regenerative braking), which is capable of generating a decelerative force of 0.6G.

Rear-wheel N Corner Carving Differential (e-LSD)

This electronic limited-slip differential controls the drive (rear) wheels to enable maximum motor output, enhance driving performance, and compensate for driving power losses.

N Exclusive Functions

Experience everything that N technology has to offer—even on the racing circuit.

01 Race

N Race (Sprint, Endurance)

Manages energy consumption so that you can employ the function that is best suited for a particular driving situation.

- Sprint : Minimizes lap times by delivering maximum performance in a short timeframe.
- Endurance : Extends track-driving time by adjusting output intelligently.

N Battery Preconditioning (Drag mode, Track mode)

Maintains optimum battery temperature in preparation for diverse driving situations.

- Drag mode : Maintains battery temperature at 30-40°C to ensure maximum performance in a short timeframe.
- Track mode : Maintains battery temperature at 20-30°C for sustained driving.

Track SOC (State of Charge)

Displays energy consumption levels from the previous lap to allow the driver to control battery levels during circuit driving.

02 Linear route

N e-Shift / N Active Sound+

Allows driver to closely control the car's movements by changing speed virtually, with three driving sounds to choose from. (Ignition / Evolution / Supersonic)

N Launch Control

Allows car to accelerate easily when starting from a stop and provides optimized motor torque and wheel slip control based on road grip level (low, medium, or high).

NGB (N Grin Boost)

Maximizes acceleration performance by making the battery and motor more responsive and able to operate at maximum output over a designated period of time.

Listen to audio samples of N e-Shift and N Active Sound+

Curved route

03 Curved route

N Pedal

Enables agile handling through the quick transfer of weight using strong regenerative braking (when the accelerator pedal is not depressed).

N Torque Distribution

Allows the driver to decide the driving power to be delivered to the front and rear wheels.

N Drift Optimizer Pro (with Torque Kick)

N Drift Optimizer Pro is a function that prioritizes the transfer of driving power to the rear wheels to ensure smooth drifting and optimizes vehicle control. N Torque Distribution has 10 levels of adjustment. A professional driving mode is also available.

More on
N Exclusive
functions

EV Convenience

Can be quickly recharged by even a high-output, high-voltage charging system.

Multi-high-speed charging system

The IONIQ 5 N is equipped with the multi-high-speed charging system (400V / 800V), which is compatible with a wide range of charging infrastructures.

Rapid charging
(350kW, at highest-allowable battery temperature)

18min

Can go from 10% to 80% in as little as 18 minutes with an 800V charger. Convenient for linked or emergency charging.

Maximum driving distance for one charging

351km

The use of a large-capacity battery pack (84.0kWh) makes the IONIQ 5 N an electric car that can be taken on long-distance drives, in addition to shorter urban trips.

Regen control paddle shift

Allows quick and easy change in cruise regeneration level (coast regen)* via an N-exclusive paddle shift, with five levels for regular driving (0-4) and three for the N pedal (1-3).

* Coast regen: Recovers energy through the regeneration function of the motors when driving for a prolonged period without using the accelerator pedal, not to be confused with regenerative braking via cooperative control.

Outdoor V2L

Passengers can use a wide selection of electronic devices outside the vehicle as well as inside through the outdoor V2L function. The outdoor V2L function ensures a comfortable experience for passengers during outdoor activities in virtually any environment.

Hyundai SmartSense

Hyundai SmartSense keeps the driver and passengers safe and protected.

More on
Hyundai SmartSense

Forward Collision-avoidance Assist (intersection crossing/front oncoming/ changing lanes in oncoming traffic/approaching from either side/ evasive steering assist)

This function, after scanning the vehicle's immediate surroundings, issues warnings of collision risk. If, after a warning is issued, the vehicle in front suddenly slows down or the risk of (front) collision with a car, motorcycle, pedestrian, or bicycle increases, automatic control is activated. If, while making a left turn at an intersection with the turn signal on, the risk of collision increases with a car or motorcycle approaching from the opposite side or with a car approaching from the left or right while going straight at an intersection, automatic braking will be activated to help the driver maintain control of the vehicle.

Lane Following Assist

This system keeps the car in the center of the lane.

Blind-spot Collision-avoidance Assist

A warning is issued if risk of collision with the vehicle next to or behind you is detected while changing lanes. If, while attempting a forward exit (from a parallelparked position), risk of collision with the vehicle next to or behind you is detected, the automatic vehicle control function is activated.

Rear Cross-traffic Collision-avoidance Assist

If a collision risk is detected from the right or left while driving in reverse, the driver is issued a collision warning. If the collision risk increases after the warning, the brakes are activated automatically.

High Beam Assist

Automatically brightens or turns down the head lamps after ascertaining the brightness of the driver's surroundings or the lamps of an oncoming car or a car driving in front.

Navigation-based Smart Cruise Control (safety speed zone/ curve control/access road)

This system helps the driver maintain a safe speed based on road conditions when driving on a highway or a regular road. It automatically reduces the car's speed just before it enters a reduced-speed zone. After leaving the reduced-speed zone, the vehicle is brought back to its designated speed. This system also helps maintain a safe driving speed at the entry or exit point of a highway.

Highway Driving Assist 2

This system helps to not only maintain a safe distance with the vehicle in front on a highway or a regular road by driving at a uniform speed but also to keep the vehicle in the center of the lane on a curved road. If you engage the turn signal in the direction you wish to change lanes in, the vehicle will automatically move over (HDA 2 only works above a certain speed).

* Since the advanced driver assistance system (ADAS) is a function that assists the driver's operation, always drive with caution.

* The function may not operate smoothly or properly depending on the surrounding environment and driving conditions.

In addition, the function may operate with restrictions depending on the regulation related to the certification of the advanced driver assistance system. For details, refer to the owner's manual.

* The above specifications are applied differently depending on the trim, powertrain, and specifications directly selected by the vehicle purchaser in consideration of price and preference.

IONIQ 5 N Essential / IONIQ 5 N

IONIQ 5 N (Performance Blue Matte)

IONIQ 5 N Essential

Full LED headlamps (projection type), LED DRL & turn signal lamps

N-exclusive metal doorstep plate (black-anodized/N logo/checkered flag graphic)

Power windows with pinch protection (all seats)

12.3-inch, full-size, color LCD cluster (with exclusive N graphic design)

Dual-zone full automatic air conditioning (with micro air filter, auto defog system, fine dust sensor, air cleaning mode, and after-blow function)

BOSE premium sound (8 speakers and external amp)

IONIQ 5 N

Power windows with pinch protection (all seats)

Head-up display (including N graphic design)

Wireless phone charger

Hyundai N fast-charging station

To enable IONIQ 5 N customers to enjoy track driving without charging worries, Hyundai Motor provides free charging benefit at the Hyundai N fast-charging station at Inje Speedium, Korea's leading racing circuit.

Location

- Parking Lot 2, Inje Speedium

- Address: 130, Sanghadap-ro (1500, Buk-ri, Girin-myeon), Inje-gun, Gangwon-do, Republic of Korea

Benefit eligibility/details

Charging rates

(Unit: KRW/kWh)

Category	IONIQ 5 N, IONIQ 6 N	General EV customer
EVSIS Member	Free	450
Public discount infrastructure membership card (Ministry of Climate, Energy and Environment)	347.2	
Roaming	* Varies by company	

* Roaming vendors : Private - 40+ companies including ChargeEV, KEVCS, Daeyoung Chaevi, TMAP, Easy Charger and more.

* Figures as of April 15th, 2026

Rates for general EV customers and private roaming vendors' rates may change based on company policies.
(Free charging for IONIQ 5 N and IONIQ 6 N customers remains unchanged.)

* The charging rate discount benefit is only provided at Hyundai N Inje Speedium fast-charging station.

* This benefit is valid during the operation of the Hyundai N Inje Speedium fast-charging station (until 2028) and may change based on company policies.

* N Brand/Hyundai Motor charging discounts are provided after confirmation of EVSIS membership (membership card, QR code, NFC).

* The above discounts are not provided for roaming charging or purchases made with an EVSIS gift certificate or subscription plan.

* In the event of a communication error between the charging station and your vehicle, you may be unable to receive the above discounts.
(Customer services: 1577-1556)

Hyundai N app

- Can use additional functions after acquiring Bluelink membership (e.g. link to driving data, ranking data).
- Stores/analyzes actual driving data collected while on the track.
- Provides circuit driving data to other app users.
- Can be used simultaneously on smartphone and tablet PC (with at least Android 6.0 or iOS 11.0).
- Provides data on motor/battery temperature, G-Force, RPM, torque, lap times, and more.
- How to download: Search "Hyundai N" on Google Play (Android) or App Store (iPhone)

Dimensions

Unit: mm

Classification	IONIQ 5 N
Overall Length (mm)	4,715
Overall Width (mm)	1,940
Overall Height (mm)	1,585
Wheel Base (mm)	3,000
Wheel Tread, Front (mm)	1,667
Wheel Tread, Rear (mm)	1,672
Battery type	Lithium-ion
Battery capacity (kWh)	84.0
Max. Power (kW)	478
Max. Torque (Nm)	770

Model	Fuel type	Rated voltage of storage battery (V) / Capacity (Ah)	Max.Power (kW/PS)	Curb weight (kg)	Tire (inch)	Fuel efficiency reported to the government (fuel efficiency) (km/kWh)			Maximum driving distance for one charging (km)		
						City	Highway	Combined	City	Highway	Combined
IONIQ 5 N	Electricity	697/120.6	448/609 478/650 (when using N Grin Boost)	2,200	21	4.0	3.4	3.7	377	319	351

※ All figures satisfy standards designated by the Ministry of Trade, Industry & Energy.

Maintain a constant speed to drive more efficiently.

-The fuel economy described above is based on the standard model and may differ during actual driving depending on road conditions, driving technique, cargo load, vehicle maintenance, and outdoor temperature. -Some of the images presented here include optional specifications, so their appearance may differ from the car you purchase. -The specifications, colors, and sources presented here may be modified to improve vehicle exterior and performance. -Leather (seats, wrapped parts) is partially mixed with synthetic leather and/or other materials (e.g., fabric). -Vehicle colors presented here may differ from actual appearance. -Driving range may vary depending on the driver's habits, road conditions, outdoor temperature, and air conditioning settings. -A drop in outdoor air temperature (in winter months) may result in a shorter range due to a decrease in battery performance. -This EV is heavier than the internal combustion engine model due to its high-capacity battery. Depending on the specifications for Korean automated parking garages, it may not be possible to park the EV. -Hyundai Motor Company is committed to fair trade practices, with the same price and quality of vehicles nationwide. -For more information about the new technologies and specifications described in this brochure, please refer to a user's manual.

The images presented here are intended to inform customers and display the best models and options. The specifications described above vary by option, package, powertrain, and exterior color. For detailed specifications, please refer to the price list for the relevant month.

How to purchase an electric car

① Sign a car sales contract

- Car contract

② Apply for subsidy

- Fill out electric car subsidy application for the local government of jurisdiction

- Submit application

- Receive results

③ Car allocation, car release

- Check is made on eligibility for and amount of electric car subsidy (from local government of jurisdiction) by 10 days before car allocation

- Car will be released if there are no outstanding issues

④ Apply for payment of subsidy

- Application process for payment (wire transfer) of subsidy to the local government of jurisdiction must be completed within 10 days of the car's release

- Once subsidy is confirmed to have been wire-transferred to Hyundai Motor, subsidy amount is subtracted from price that needs to be paid by customer

IONIQ 5 N Warranty information

- Warranty period for separately-insured electric car parts : 10 years, 160,000km ※ High voltage battery: 10 years, 200,000km

- Related parts : Drive motor, Reducer, High voltage battery, Inverter, ICCU (LDC+OBC), Electric vehicle system control device (VCU)

For when thinking of buying, and maintaining my car!

Hyundai Motors' various services are prepared to assist from start to finish!

Convenient test drive service

Step 1: Make a test drive reservation (website, phone, and car coordinator)

Step 2: Fill out a consent form at the relevant driving center

Step 3: Go on a test drive

Step 4: Receive a purchase consultation (e.g. estimate, and purchase conditions)

Test drive reservation
(website)

New vehicle purchase benefits

Members of Bluemembers purchasing a new Hyundai Motor vehicle (including commercial vehicles) are eligible to earn Bluemembers points based on the purchase type/vehicle type/purchase frequency

① Individual members : Earn 50k to 750k points, depending on the vehicle type/purchase frequency

② Corporate members : Earn 30k to 70k points, depending on the vehicle type

※ For details, please refer to the Hyundai Motor website.

Points reward guide

Smart car maintenance

1. Car Life services

- Services that can be applied for via myHyundai app: MyHyundai Car Life, EV Safety Care, Lucky Pass H, and charging discounts for EVs

Download
myHyundai

All Care Service Map

2. Warranties and services

- Warranty system in which customers can choose scope and/or duration, Bodycare, and Warranty Plus
※ Bodycare Service is complimentary to individuals and private business owners who purchase an IONIQ 5 N.

3. Preventative and inspection services

- To help keep your car in top shape: Blue Basic Inspection, Before Service on Wheels

4. Emergencies and maintenance services

- For an emergency or when receiving your car: SOS emergency response, on-site charging, and Home-to-Home
- For more assurance when using your car: excessive repair fee prevention program, and car support services

Tip Anyone who has a driver's license and is at least 21 years old can apply for a test drive.

The driver is required to carry a presentable license in person to apply for the test drive.

Use the Hyundai EV card when purchasing a new vehicle to earn additional Bluemembers points.

(Refer to the Hyundai Card website for details)

Bluemembers partner companies offer diverse mobility and lifestyle/charging benefits. Don't miss out!

※ Holders of (previously issued) Bluemembers partner credit cards will continue to receive both

M points and Bluemembers points.

2026 EV EVerycare

Supporting you every step of the way,
so you can purchase your EV without worry.

When purchasing

Benefit 1. 200,000 charging credits

Vehicle-purchasing customers are gifted 200,000 charging credits that can be used at EV charging stations.

※ Eligibility: Customers taking delivery of the 2026 IONIQ 5 N

※ Must apply within two months of the car's release month

※ Accepted at: any SK Electlink or SK Electlink-partnered charging station nationwide

Benefit 2. EV Body Care

Body Care, a service that provides repairs for external damage to your vehicle, is provided free of charge for one year.

※ Eligibility: Individuals or private business owners who have purchased an IONIQ 5 N

※ Provided benefit: exterior-related repair or parts change for up to one year after factory release or 20,000 kilometers

- This service is offered free of charge but will be canceled if an additional purchase is made via HyundaiShop.

- This service is not provided for windshields or tires.

Benefit 3. Blue Basic Inspection

Provided annually for 10 years from date of release

※ Eligibility: Bluemembers customers who have purchased an IONIQ 5 N

Benefit 4. Replacement with new vehicle

If a total loss occurs within two year of the car's release, funding is provided for the purchase of a new vehicle

Benefit 5. EV charging solutions

We offer a wide range of charging solutions, including on-site charging, as well as charging solutions

Benefit 6. EV Fire Safety Insurance

Coverage is provided for damage to third parties caused by an EV-related fire through the EV Fire Safety Insurance.

※ Insurance effective date: July 1, 2026.

Detailed policy terms can be found on Integrated Zero-Emission Vehicle Portal

When driving

※ For further information on benefits, please refer to Hyundai Motor's website or make an inquiry to a branch or dealership.
