

NEXO

Prestige Full Option (Goyo Copper Pearl)

Something only you can do

NEXO

Your new mobility life,
fueled by extraordinary energy.

Exterior

The rigid silhouettes of Art of Steel* take advantage of steel's natural elasticity and emphasize the strength and beauty of the material itself, delivering a unique image.

* Art of Steel is the design identity of NEXO, which utilizes the elasticity of steel as a raw material and transforms it into a form of beauty.

Prestige Full Option (Goyo Copper Pearl)

Ambient lighting auto flush door handles, roof rack, 19-inch alloy wheels & tires

LED positioning lights, LED Daytime Running Lights, Full LED headlamps
(including Projection type, Intelligent Front-Lighting System, Dynamic welcome/escort lighting)

LED rear combination lamps

Digital side mirror

Prestige Full Option (Gray/Ivory Two-tone)

Heated & ventilated 2nd-row seats, Wireless phone charger(dual), Driving mode-dependent ambient mood lighting(crash pad, 1st/2nd-row door trim), In-car fingerprint authentication system(personalization, startup, payment, and etc.)

※ Infotainment system screen images are subject to change due to updates.

Interior

We have created a sensual space where you can enjoy a vibrant lifestyle in a modern yet cozy setting with a homely feel.

Panoramic curved display

Bio-processed natural leather seats(metal patch applied, embossed design punching),
Recycled PET suede interior materials(headlining/sun visor)

* CO₂ reduction of approximately 0,35 kgCO₂/m² with 50% recycled yarn used.

Space

Enjoy a spacious interior that is perfect for a relaxed lifestyle, with comfortable seating, efficient storage and optimized cargo space.

2nd-row reclining seats

The second-row seats have an adjustable recline function to provide passengers with comfort and a relaxing experience on longer trips.

1st-row relaxation comfort seats(leg rest included)

The Relaxation Comfort seats in the first row adjust to the driver/passenger's body shape, providing the best possible rest for long journeys.

Passenger-side open tray

We offer enhanced passenger comfort by providing easily accessible storage space for small items such as mobile phones, wallets, and folding umbrellas.

Console tray and phone holder compartment

The easy-to-reach small-item tray by the cupholders allow you to store a variety of items and keep them handy while driving.

Luggage space

The luggage compartment has increased front-to-back space and an improved side-to-side extension. It can hold up to four sets of golf bags (golf bags and Boston bags) and has plenty of room for luggage and other items.

5min SOF 95% or more charge

720km Range per charge

* Based on 18-inch tires * Based on combined fuel economy (107.6km/kg) X hydrogen tank capacity (6.69kg)

※ This image depicts a simulated scenario. The time and amount of charging may vary depending on the condition of the hydrogen charging station (hydrogen pressure/temperature), the condition of the hydrogen in the tank (residual pressure, temperature level, etc.), the season, etc.

Fuel Cell Electric

Enjoy a lifestyle that is all about electrification, mobility and the environment with a hydrogen-based system that is eco-friendly and does not emit fine dust when the fuel cell is in operation.

Route planner

It determines whether it is possible to reach the destination set by the customer with the current hydrogen level, and provides real-time charging information such as hydrogen charging station hours and waiting status to provide the optimal route.

Wireless phone charger(dual)

Dual wireless charging system for fast charging of two smartphones without the need for separate cables.

Outdoor V2L (Connectorless type)

The Outdoor V2L model has been designed to offer convenience, featuring a direct 220V plug that eliminates the need for a separate connector. This feature enables users to seamlessly utilize a wide range of electronic devices in various settings and locations.

Indoor V2L

The indoor V2L supplies power to the cabin of the vehicle, allowing passengers to charge or use electronic devices while the vehicle is in motion or parked.

100W USB Type-C Ports(2 ports in both 1st & 2nd-row, 1 charging cable included)

Quickly and efficiently charge a wide range of electronics, including high-performance laptops and tablets for powerful charging.

Prestige Full Option (Goyo Copper Pearl)

150kW/350Nm Motor Maximum Power/Motor Maximum Torque

Driving

The high efficiency and dynamic power of hydrogen-electric power, combined with advanced safety features that take into account the vehicle's various situations, make for an enjoyable and comfortable drive.

9 airbag system(1st-row advanced/center side airbags, 1st/2nd-row side airbags, and rollover-resistant curtain airbags)

A total of nine airbags, including 1st-row advanced/center, 1st- and 2nd-row sides with rollover curtains help keep passengers safe in the event of a collision.

Platform reinforcement

We have further strengthened the body structure to ensure the highest level of crash safety for driving stability and occupant safety.

Driver monitoring system

A camera module mounted in the vehicle recognizes the driver's face and analyzes the video to monitor drowsiness (tiredness), inattentive driving (not looking ahead, etc.), etc.

Active road noise control

Advanced Active Noise Control technology effectively suppresses road noise while driving for a quieter, more comfortable cabin experience.

Pedal Misapplication Safety Assist

If the driver mistakes the accelerator pedal for the brake pedal when departing from a stop or a front or rear obstacle is close by, acceleration limitation and emergency braking mitigate crash damage.

Regenerative braking system

You can adjust the regenerative braking levels using the paddle shift, and the Smart Regenerative System automatically adjusts the regenerative braking levels based on the driving environment while driving.

Function

The latest technology and sophisticated features make driving a special experience that is enjoyable from start to finish.

Hyundai AI assistant

With Hyundai's generative AI, you can use voice commands to control various features of your car and get the information you need while driving.

Audio by BANG & OLUFSEN sound system(14 speakers, including external amp)

Audio by Bang & Olufsen Sound brings you to life with 14 high-performance speakers and an external amplifier for the highest level of sophistication and spatial orientation.

Digital key 2

The vehicle can be locked or unlocked or started up on via iPhone, Apple Watch, or Android smartphone (e.g., Samsung phone), and access permission can be shared up to 15 devices.

* Please refer to Hyundai Motor's website for a list of eligible models.

In-car fingerprint authentication system (personalization, startup, payment, and etc.)

Performs authentication functions required for in-vehicle payment and valet mode release, enabling vehicle ignition and driving.

Head-Up Display

Displays key information from the instrument panel and navigation system on the front windshield, providing information without distracting the driver's attention.

Built-in cam 2 plus

This features High-resolution front and rear cameras with excellent day/night image quality, voice recording, large external memory, OTA capability, and the ability to store and playback driving information (including map integration). It also provides built-in cam status information and transmits shock detection video while parking via Bluelink.

Hyundai SmartSense

Hyundai SmartSense is an advanced driver assistance system that provides a safe and convenient driving and parking experience to keep you safe from unexpected hazards.

Blind-spot Collision Warning(driving), Blind-spot Collision-avoidance Assist(forward exit)

An alarm sounds when there is a risk of collision with a vehicle approaching from the rear when changing lanes or while backing out of a parking space. If the risk persists, the brakes are activated automatically.

Forward Collision-avoidance Assist(intersection crossing/changing lanes in oncoming traffic/ approaching from either side/evasive steering assist)

It watches your surroundings and automatically helps you brake when the risk of collision with cars, motorcycles, pedestrians, and cyclists ahead persists. If the risk of a collision with a vehicle approaching from the left or right while turning left at an intersection, or a vehicle approaching from the left or right while driving, or a vehicle approaching from the front while driving, increases, it will automatically apply the brakes.

Highway Driving Assist 2

It helps you drive on highways and motorways while maintaining a distance from the car in front, the speed set by the driver, and the center of the lane (including curved roads). When you get close to the car in front, it avoids danger by steering within the driving lane. Also, if you turn on the turn signal while holding the steering wheel at a certain speed or above, the car will automatically change lanes in the direction of the turn signal.

Navigation-based Smart Cruise Control(safety speed zone/curve control, access road)

While driving on expressways and highways, the system adjusts to ensure travel at safe speeds according to road conditions. It automatically reduces the vehicle's speed prior to safe zones, curves, and before approaching entry-exit ramps. After passing these zones, the system accelerates back to the original speed afterwards.

※ Advanced Driver Assistance Systems are designed to assist the driver. Please be cautious when driving. ※ Please note that the features may not function properly depending on the environment, driving conditions and operating conditions. For full details, please refer to the Owner's Manual.

※ Please note that the availability of certain features may be dependent on the selected options.

Rear Cross-traffic Collision-avoidance Assist

While driving above a certain speed, it recognizes the vehicle behind you and alerts you with warning lights and an alarm there is a risk of collision. It also helps you brake if you're moving forward and the risk of a collision increases.

Lane Following Assist 2

The system uses a front camera to recognize the lane and helps the driver keep the vehicle centered. When the lane is not recognized, the system detects the vehicle ahead and assists with steering to follow the vehicle. Compared to the previous models, the operating range has been expanded (including high-curve areas) and steering angle control has been applied, improving lane centering performance.

Modern/Exclusive

18-inch Alloy Wheels

19-inch Alloy Wheels

Modern (Serenity White Pearl)

Walk-away lock
Smart power tailgate

ECM room mirror(frameless)
Metallic pedal

Hi-Pass (including e-hi-pass)
Wireless phone charger(single)

LED interior lamp (map lamp, personal lamp,
sun visor lamp, and luggage lamp)
In-car fingerprint authentication system
(personalization, startup, payment, and etc.)

Dual-zone full automatic air conditioning
(with micro air filter, auto defog system,
fine dust sensor, air cleaning mode,
and after-blow function)
Electronic Parking Brake
(with automatic vehicle hold)

Specifications

Models	Fuel Type	Curb weight (kg)	Fuel economy		
			City (km/kg)	Highway (km/kg)	Combined (km/kg)
NEXO_18-inch	Hydrogen Electric	1,870	113.7	100.9	107.6
NEXO_18-inch + Built-in Cam		1,870	110.8	98.2	104.7
NEXO_19-inch		1,900	99.3	90.4	95.1

Please follow designated speed limits for maximum fuel efficiency.

- Depending on the status of the hydrogen charging station, the vehicle may not be fully charged, and the range may vary accordingly. - The time required for a full charge (SOF 95% or higher) and the amount of hydrogen charged may vary depending on the status of the hydrogen charging station (hydrogen pressure/temperature), the condition of the hydrogen in the tank (residual pressure, temperature level, etc.), and seasonal factors. - The driving range may vary depending on road conditions, driving methods, vehicle load, maintenance status, and ambient temperature. - Leather seats include some synthetic leather. For key parts of combination seats, natural leather is used. - Specifications, colors, and features shown in this publication may be subject to change without notice due to improvements in the appearance and performance of the vehicle, or in accordance with relevant laws and regulations. - Vehicle colors in this publication may vary from actual vehicle colors. - Hyundai Motor Company sells vehicles only through Car Masters in its branches and agencies while engaging in good trade practices at the same prices for the same products all over the country.

Images in this catalog are intended to enhance customer understanding and focus on high-end models and optional features. The features introduced herein may vary by trim model, package, powertrain, and exterior color. Please refer to the monthly price table for more detailed features specific to each model.

NEXO warranty

Type		Warranty
Hydrogen electric vehicle separate warranty parts		10 years or 160,000 km
Generic parts optional	Mileage type	2 years or 80,000 km
	Basic	3 years or 60,000 km
	Extended duration	4 years or 40,000 km

※ Parts warranted separately for hydrogen electric vehicles: fuel cell, fuel cell-related high-voltage junction box, drive motor, reducer, inverter, fuel cell control unit (FCU), high-voltage battery, integrated direct current converter (IDC) [bi-directional direct current converter (BHDC) + direct current converter (LDC)], fuel pressure regulator, fuel tank valve, hydrogen tank, air humidifier assembly, controller, integrated air compressor

Type	NEXO
Overall length (mm)	4,750
Overall width (mm)	1,865
Overall height (mm)	1,675
Wheelbase (mm)	2,790
Tread (front) (mm)	1,614(18"/19")
Tread (Rear) (mm)	1,625(18"/19")
Fuel Type	Hydrogen Electric
Maximum power (kW)	150kW/203.8PS(4,200~5,000rpm)
Maximum torque (Nm)	350Nm/35.7kgf-m
Maximum Speed (km/h)	179(18"), 178(19")
Tires (Inches)	18, 19
Drivetrain	Front wheel drive
Range (km)*	Up to 720km
Fuel tank capacity (kgH ₂ /ℓ)	6.69/162.6

* Based on 18-inch tires / Based on combined reported fuel economy (107.6km/kg x hydrogen tank capacity (6.69kg))
