Space

The availability of 7- and 9-passenger seating adds new depth to the interior space.

More on
Space

7-seater

7-seater Calligraphy Full Option (Brown one-tone)

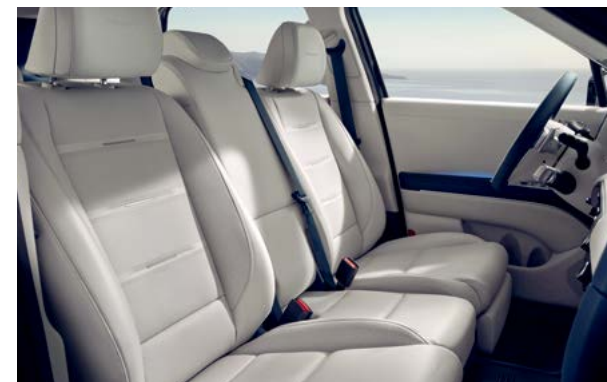

2nd-row relaxation comfort seats
2nd-row dynamic body care seats

9-seater

9-seater Calligraphy Full Option (Dark Navy / Light Gray)

**1st-row center seat
2nd-row 60/40-split folding seats**

* Criteria for bus-only lane: passenger car that has at least nine seats and six passengers

* Tax benefits: 1) VAT refund if purchased by a corporation or small business owner or company

2) Acquisition and registration tax exemption if the owner has at least two children aged 17 or younger

3) Individual consumption tax exemption

* The walk-in feature for the 9-seater's 2nd-row is on the "40" side of the 60:40 split only.

Function

PALISADE offers extensive innovative convenience features befitting of a premium flagship SUV.

More on
Function

Digital Key 2

A smartwatch or smartphone can be used to lock or unlock the doors and start the vehicle, and share access with designated users.

Walk-away Lock

The doors automatically lock when you move a certain distance away from the vehicle while carrying the smart key.

BOSE premium sound (14 speakers and external amp)

An available sound system of 14 premium speakers, high-end external amp, and BOSE's bespoke sound profile delivers grand and rich audio experience.

Reverse light guide

The reverse lights signal the nearby vehicles and pedestrians by illuminating the ground when in reverse gear.

* Digital key 2 support and further details can be found on Hyundai Motors' and smartphone manufacturers' website.

Hyundai AI Assistant

With the generative AI developed by Hyundai, passengers can access vehicle's functions via voice commands, and receive essential information while driving.

100W USB Type-C ports (6 ports)

Fast charging USB ports capable of delivering up to 100W are located in all three rows, providing quick connectivity to all passengers.

* The screen layout/design of the infotainment system may change with the updates.
* Maximum of 50W output is available when using two of 100W USB ports simultaneously in the 1st-row.

Built-in Cam 2 Plus

Improved high-resolution camera looks out front and rear of the vehicle, and records when motion is detected when parked enabling to capture incidents over an extended period of time. Integration with Bluelink enables the vehicle to notify, and send recordings when impact is detected and provide camera status.

Digital center mirror

Full-display digital rearview mirror provides clear view behind the vehicle combined with designated camera.

* Built-In cam 2 Plus can run for maximum for 4 consecutive days when motion detect feature is activated. (Motion detect and 24-hour recording cannot be used simultaneously.)

Surround View Monitor with guidelines

Combination of the monitor with guidelines helps the driver to better estimate the distance from surrounding obstacles.

Rear view camera cleaning system

Developed to clean both rear view cameras even while driving for enhanced safety.

Driving

The new powertrain system, with outstanding performance, enables a new level of driving experience.

Combined fuel economy
km/ℓ (based on 18-inch tires/6-speed A/T/2WD/7/9-seater without built-in cam)

Stay mode

On-board battery delivers comfortable resting space without the need of starting the vehicle. When activated after parking the vehicle, convenience features including multimedia can be accessed.

Indoor V2L

External devices can be powered with the on-board battery. The outlet is located in the luggage space for optimal usability.

* Stay mode cannot be activated if any of the following are true: SoC under 35%, low fuel indicator on, power relay off, vehicle not in P (parking) mode.

Hyundai SmartSense

Hyundai SmartSense keeps the driver and passengers safe and protected.

More on
Hyundai SmartSense

Forward Collision-avoidance Assist (vehicles/pedestrians/two-wheeled vehicles/junction turning/front oncoming/intersection crossing/ changing lanes in oncoming traffic/approaching from either side/evasive steering assist)

This function, after scanning the vehicle's immediate surroundings, issues warnings when a collision risk is detected. If, after a warning is issued, the vehicle in front suddenly slows down or the risk of (frontal) collision with a car, motorcycle, pedestrian, or bicycle increases, automatic braking is activated. If, while making a left turn at an intersection with the turn signal on, there is increased risk of collision with a car or motorcycle approaching from the opposite side or with a car approaching from the left or right while going straight through an intersection, automatic braking is activated to help the driver control the vehicle. Automatic control is also activated if, while driving in one's lane, a high risk of collision with a vehicle approaching from the opposite lane is detected. The Forward Collision-avoidance Assist automatically activates avoidance steering if, while changing lanes, there is a risk of collision with a vehicle, two-wheeled vehicle, or two-wheeled/preceding vehicle in the neighboring lane. Avoidance steering is also automatically activated if there is a risk of collision with a vehicle, two-wheeled vehicle, pedestrian, or cyclist at the periphery of the lane in front or, while changing lanes, with a vehicle or two-wheeled vehicle next to or behind the car.

Blind-spot Collision-avoidance Assist (issues crash warning while driving, engages collision avoidance assist while leaving (forward) a parking space)

A warning is issued if danger of collision with the vehicle next to or behind the car is detected while the driver is using the turn signal to change lanes. If a risk of collision with the vehicle next to or behind the car is detected (and increases) while attempting a forward exit from a parallel-parked position, automatic braking is activated.

Smart Cruise Control with Stop & Go

Smart Cruise Control helps maintain distance from the front vehicle and drive at a speed set by the driver. Automatically stops when the front vehicle stops and automatically starts when the front vehicle departs within a short time.

Highway Driving Assist 2

This system helps to not only maintain a safe distance with the vehicle in front on a highway or a regular road by driving at a uniform speed but also to keep the vehicle in the center of the lane on a curved road. If you engage the turn signal (while holding the steering wheel) in the direction you wish to change lanes in, the vehicle will automatically move over (HDA 2 only works above a certain speed).

Navigation-based Smart Cruise Control (safety speed zone/curve control/access road)

This function helps the driver, in response to situational factors, maintain a safe speed while driving on a motorway or highway and also automatically slows the vehicle down just before entering a section of road with a lower speed limit, curved part of the road, or a ramp. After having passed through such section, the vehicle is returned to the previous speed.

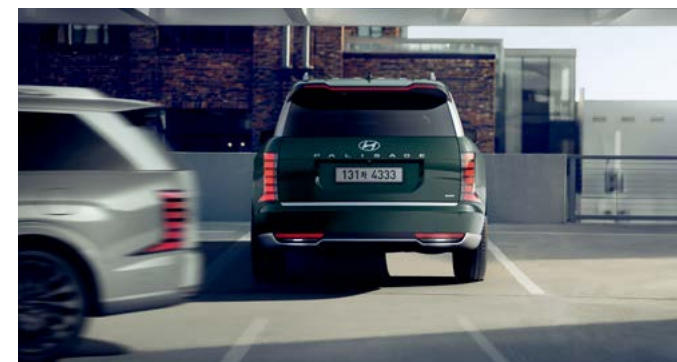

Lane Following Assist 2

This system keeps the car in the center of the lane.

Rear Cross-Traffic Collision-avoidance Assist

If a collision risk is detected from the left or right while driving in reverse, the driver is issued a collision warning. If the collision risk increases after the warning, the brakes are activated automatically.

* Since the advanced driver assistance system (ADAS) is a function that assists the driver's operation, always drive with caution.

* The function may not operate smoothly or properly depending on the surrounding environment and driving conditions. In addition, the function may operate with restrictions depending on the regulation related to the certification of the advanced driver assistance system. For details, refer to the owner's manual.

* The above specifications are applied differently depending on the trim, powertrain, and specifications directly selected by the vehicle purchaser in consideration of price and preference.

Warranty for Hybrid parts

10-year/200,000-kilometer warranty
- Electric motor,
Hybrid high-voltage battery
HPCU
(Hybrid Power Control Unit)

※ The benefits offered through the warranties above may be subject to change.
※ Contact a branch or dealership for details.
※ The warranty period starts from the date of new vehicle sale and expires when either the specified period or mileage is reached, whichever comes first.

* Figures in () for Overall Height are based on High Roof model

Maintain a constant speed to drive more efficiently.

-The fuel economy described above is based on the standard model and may differ during actual driving depending on road conditions, driving technique, cargo load, vehicle maintenance, and outdoor temperature.
-Some of the images presented here include optional specifications, so their appearance may differ from the car you purchase. -The specifications, colors, and sources presented here may be modified to improve vehicle exterior and performance. -The engine performance described above is the "Net Number," a new measure reflecting exhaust resistance that complies with legislation enforced by Korea's Ministry of Land and Transport since 1997. It can be marginally lower than "Gross Output Number," the previous measurement. -Leather seats include some synthetic leather. -Vehicle colors presented here may differ from actual appearance. -The specifications listed in this brochure may change depending on the model, and they may apply to a car fitted with optional equipment. Please refer to the appropriate price chart for additional information. -Hyundai Motor Company is committed to fair trade practices, with the same price and quality of vehicles nationwide. -Use of engine oil or fuel that is of low quality may result in damage to the vehicle. -For more information about the new technologies and specifications described in this brochure, please refer to a user's manual.
